## EXPERIENCE

- **Full Stack Developer** Mumbai  
*Unicore Infotech* 04/2023 - Present
  - Designed, developed, and maintained web applications using HTML5, CSS3, JavaScript, and other programming languages as per requirements.
  - Lead the application development along with guiding junior developers on various projects.
  - Tested and debugged applications to ensure they are error-free and met customer requirements.
  - Integrated UI elements with server-side logic.
  - Implemented databases to store and organize data for the web applications.
  - Optimized applications for maximum speed and scalability.
  - Utilized version control systems such as Git to manage codebase changes and collaboration of the team.
- **Frontend Developer** New Delhi  
*HostHunt.xyz* 01/2022 - 06/2022
  - Designed and developed user-facing features for web applications.
  - Worked with well-structured, maintainable code using HTML, CSS, JavaScript and React.JS.
  - Optimized applications for maximum speed and scalability.
  - Collaborated with other team members to ensure the best user experience through out the app.
  - Troubleshooted and debugged applications for maximum performance.
  - Develop technical documentation whenever needed.
- **Web Development and Design Intern** Singapore  
*Spark Foundation* 06/2021 - 10/2021
  - Spearheaded site development projects, delivering high-quality results on time and within budget by utilizing HTML, CSS, JavaScript, NodeJS, and diverse API's.
  - Collaborated with a team of fellow developers in a peer-evaluation model to ensure that all work met the desired quality standards before rollout.
  - Worked with SQL queries and image & video editing tools to optimize site media and data to enhance user interface and accessibility resulting in better user experience.

## PROJECTS

- **Image Editor** 19-02-2023 - 09-03-2023  
*Github*
  - Developed a JavaScript based HTML canvas image editor using HTML5, CSS3, and JavaScript.
  - Implemented features such as cropping, rotating, gray scaling and modifying saturation with brightness.
  - Utilized the Fabric.js library to manipulate images on the canvas.
  - Created a user interface with drag-and-drop functionality for easy image manipulation.
  - Developed custom algorithms for image processing and manipulation.
  - Optimized the application for performance and scalability.
- **Live Chat App** 04-06-2023 - 28-06-2023  
*Github*
  - PHP and JavaScript based live chat application, allows users to communicate in real-time.
  - Supports multiple chat rooms and private messaging.
  - Includes emoticons, stickers and it also supports text formatting options such as bold, italic, underline, etc.
  - Includes user authentication feature.
  - Integrated with MySQL Database for data storage.

## EDUCATION

- **Lovely Professional University** Phagwara  
*Masters - Computer Application (MCA) - 8.4 CGPA* 07-2022 - 07-2024
- **Lovely Professional University** Phagwara  
*Bachelors - Computer Application (BCA) - 8.56 CGPA* 06-2019 - 07-2022

## SKILLS SUMMARY

- **Languages** JavaScript, HTML5, CSS3, C/C++, Python, Java
- **Frameworks** React.JS, Node.JS, Bootstrap, TailwindCSS
- **Databases** MySQL, Oracle SQL, MongoDB, SanityBase, FireBase
- **Tools** VS Code, Git, GitHub, AWS, Netlify, Vercel, StackOverFlow, Oracle Live

## CERTIFICATIONS

- **Responsive Web Design** - FreeCodeCamp
- **Meta Frontend Developer** - Meta via Coursera

## EXTRA CURRICULAR ACTIVITIES

- Code-a-Newtron — Hackathon — Newton School — 2023
- Open Source Contributions — Roadmap.sh — Github — 2022
